Independence Day.

The citizens of Cheboygan were very patriotic this year, and devoted two days, the 3d and 5th, as the Fourth was Sunday, so as to be sure they celebrated the right day and paid due observance to this memorable day in the history of our country. Saturday, 3d, was celebrated at home, and the programme and contested with the team from the fort upon tiel row range, the country. Saturday, 3d, was celebrated at home, and the programme and contested with the team from the fort upon tiel row range, the secondary of t trotting park, and while there was no St. Julien on the track, the fast nags of the village afforded interesting amusement for the spectators. The first race was a trotting race free to all horses owned in the county, barring Wm. S. Smith's and P. H. McDonald's horses, Joe. Allair's Pretty Kit won the first heat easily, and won the race in the second heat by distancing the field. The second race, free to all, trot or pace, was won by James Duggan's pacer, "Sleepy Tom," in two straight heats.

The running race had four entries.

The running race had four entries.

The time was satisfactory to the club but as some of the horses bolted in each heat, and one rider in the second heat took a little exercise on foot, the race was not as satisfactory as it might have been, and there is some dispute as to the decision of the judges, and the question has been referred to one of the leading sporting papers to decide. The receipts were sufficient to pay all expenses and leave the managers a small margin, which is very satisfactor to them.

THE FIFTH AT MACKINAG.

THE FIFTH AT MACKINAC.

By mutual understanding it was agreed that Cheboygan was to celebrate the 3d and Mackinac the 5th, each join-ing with the other. No doubt many of our citizens wondered on Saturday where the patriotic citizens of the island were, as but few familiar faces from that romantic isle could be seen upon our streets or joining in witnessing the port at the trotting park. Monday and 300 went to the island and joined them in celebrating the day. James J. Brown of our village, delivered an appropriate oration, and was listened to attentively. Mr. Brown seems to be the favorite Fourth of July orator of our neghbors, this being the third occasion be has served them in that capacity each time with credit to himself, and the satisfaction of his hearers. The rife coptest resulted in a victory for the Cheboygan Gun club, the particulars of the broad of the previous night having made the listand appear at its loveliest.

Healing on, it will be noticed that when three men on each side had shot it stood at its dood at elevating Sergeant Downey and W. S. Humphrey's decide the match. With only two shots remaining to each side it was a tie, on next to the last shot Macking the satisfactory of our neghbors, this being the third occasion be has served them in that capacity each time with credit to himself, and the satisfaction of his hearers. The rife coptest resulted in a victory for the Cheboygan Gun club, the particulars of the first that in all their practicing they had used peep sights at the breech, with globe, wind gage sights at the muzzle and in the matches they wanted in five innings, winding up with a score of 23 to 0. The party from Cheboygan returned early in the evening having spent a delightful day, the rain of the previous night having made the island appear at its loveliest.

Humphrey to decide the match. With only two shots remaining to each side it was a tie, on next to the last shot Macking the attentive of their labors, which shows a satisfactory growth of our county, the population having more than doubled since 1874. In 1864 the population was 483. In 1876, the laboration was 483. In 1876, the laboration was 483. In 1876, the laboration was 483. In 1874, In 1874, 3,1070; and now 6,507. will prove the banner township of the county. Four years ago, a wilderness without an inhabitant, to-day 140 families and numbering 588 inhabitants, has 700 acres of cleared land, 48 farms with 3 acres and over cleared and under cultivation. In 1879 it had 83 acres in wheat, producing 1,500 bushels; 43 acres in corn, producing 1,500 bushels; 43 acres in corn, producing 1,100 bushels of shelled corn; 40 acres in potatoes, raising 4,000 bushels. The value of farm products was \$15,000 for the year. In the spring of 1879 they made 6,500 lbs of maple sugar in addition to a large quantity of syrup. There are 18 good frame dwellings and more being constructed. The log dwellings are comfortable and some of them large and conveniently arranged. The citizens believe in educa-The log dwellings are comfortable and some of them large and conveniently arranged. The citizens believe in education and have built 6 school houses two of them substantial frame structures. There are three church organizations in the the town. During the year ending May 31st there were 6 deaths in the town — two of them being transient persons, three of the residents were children and the fourth an old man who died from consumption. There are 185 males over 21 years of age which would indicate a prospect of a good sized vote at the approaching election. There are only two fractional quarter sections of government land, containing less than 70 acres, remaing untaken in the town. For the above figures we are indected to E. A. Faunce, census enumerator. The citizens of Tuscarora are enterprising and industrious and are doing good work toward making "the wilderness blossom as a rose," and it will not be many years until this portion of our county will be producing a large proportion of the necessaries of life consumed in this section.

Editor Northern Tribume,

I wish you would please give space in your paper for this, as a vindication of myself. I see in your last issue and also in the Democrat of this, week that I had promised to get the rifle team from Mackinac by 9 a. M. on the 3d inst., it is a mistake, for I made no promise of the kind and no such promise of the kind and no such promise was asked of me. Mr. W. S. Humphrey and I had some talk in reference to it, but at no time did I deem that there was such a bargain made between him and myself for I understood that the R. C. Wilson was to fetch the team over. I would farther say to my religious friends that I was at the opaning of the Mullet Lake House but did not dance.

A Calculation.

George O. Jones, the head of the Greenback party in the state of New York, writes a letter to the Times in which he concedes to the Democrats 152 electoral votes as certain, and to the Republicans 153. For the Greenback party he claims 29, as follows: California 6, Maine 7, Mississippi 8, Texas 8. Then he says: "Now add if you choose the 13 votes from California and Maine to the Republican California and Maine to the Republican California and Maine to the Republican column, and 17 from New York, and still the party will fall short two votes from the 185 required for the success of its candidate. On the other hand, add the twelve votes from Mississippi and Texas, and eighteen from New York to the Democratic column, and that party will still fall short two women and children. A yacht containing 14 persons was capsized by a squall Monday afternoon on White Bear lake, 12 miles from St. Paul, Minn. Eight of the passengers were laboring men, only one of whom was married, and the other six were women and children. When the best went over the seven single men swam ashore as quickly as preschle The and Texas, and eighteen from New York to the Democratic column, and that party will still fall short seven votes from the 185 needed for the success of its candidates." This estimate, of course, is based on the presumption that the Greenback party in New York will not put a straight Weaver and Chambers ticket in the field, but cast its vote for one-half the Republican and one-half e-half the Republican and one-hal moeratic electors, thereby dividin the vote of that state equally between the old parties in the electoral college. by some of the wisest and best men in the Greenback party, who believe such a During the fi the Greenback party, who believe such a course might insure the success of their candidates by throwing the election into the house of representatives, where the LaMatyr, of Indiana, a Greenbacker, holds the balance of spower. Without defending or condemning the proposition at this time he submits it for public consideration, and with it the assertion that the voters in the Greenback party hold absolute control as to who shall be the next President of the United States.

down! Their platform chains that the Democrats have "reduced expenditures forty millions a year." The fact is, that in the years from 1871 to 1876, when the Republicans had control of Congress, the annual expenditures were reduced by \$34,000,000. In 1877 and 1878 the Democrats had control, and they made an apparent reduction of \$22,000,000 by refusing to provide for necessary expenses—Thus causing a huge deficiency bill. In 1879 and 1880 there was an increase of \$30,000,000, and the pational annual expenditure is now about \$4.000,000 more than it was ten years ago, when the Republican party held the purse.—Ohio State Journal.
